

Beacon LED Tower

The Lind Equipment **Award Winning** Beacon LED Tower brings you all the light you've come to expect from traditional 4x1000W metal halide light towers, but in a completely unexpected package. **Compact, lightweight, and truly man-portable**, the Beacon LED Tower can be transported with ease without any compromise in durability and stability.

The Beacon LED Tower uses **direct drive high-efficiency LED lights** and runs whisper-quiet on any power source you choose: external, a user supplied generator or a fuel tank. **Operating costs of as little as \$0.10 / hour** and with state-of-the-art robust LED lighting - the tower is virtually maintenance free.

A Beacon LED Tower can be lifted into the back of a pick-up truck, and two towers can fit in the truck bed for easy transportation. The steel frame chassis and mast are robust enough to withstand any job site condition. The Beacon LED Tower can be purchased in a **extended mast version**, boasting a maximum height of 20 feet.

AWARDS

KEY BENEFITS

- *Whisper-quiet operation*
- *Incredibly easy deployment*
- *Very low maintenance required*
- *Ability to daisy-chain multiple towers and tools*
- *2 Towers can run on a 15A circuit*
- *Use with 'suitcase' type generators, or run off external power*
- *Direct Drive high-efficiency LED lighting*

HALF the cost of light traditional towers

** Made in Canada*

LE980LEDV-T4
Four Ultra Efficient LED Lights
Two light head option available!

Available in Yellow or Black

Beacon LED Tower

SPECIFICATIONS		LE980LEDV-T2	LE980LEDV-T4	LE980LEDVEM-T4
Description of the Tower		Two-light Vertical Mast	Four-light Vertical Mast	Four-light Extended Vertical Mast
Colour Choice		Add '-B' for the black colour model, add nothing for yellow		
Lights	Power	400W	800W	800W
	Amperage	3.3 Amps @120V	6.7 Amps @120V	6.7 Amps @120V
	Lumens	60,000	120,000	120,000
	Voltage	90V-277V		
	Ingress protection	IP65 Weatherproof		
	Construction	Aluminum housing, polycarbonate lenses		
	Rated hours	Over 50,000		
	Approvals	cETLus/IP65		
Mast	Max height	16' (from the ground)		20' (from the ground)
	Construction	Steel		
	Wind resistance	45 mph		
Chassis	Construction	Steel frame		
	Outriggers	Outriggers extend to 2' beyond frame		
	Tires	Foam-filled rubber tires		Solid rubber tires
	Features	Caster wheels • Side access forklift guides		
	Dimensions (stowed)	L: 52" • W: 49"(34" fully in) • H: 83"		
	Weight	350 lbs	380 lbs	520lbs
Cabinet	Construction	Steel		
	Internal dimensions	L: 27" • W: 21" • H: 19.5"		
	Features	Lockable • Ventilated • On/off switch • Daisy-chain outlet		
Fuel Tank	Dimensions	L: 19.3" • W: 12.2" • H: 10.2"		
	Capacity	6 Gallons • 23 Litres		
	Features	<ul style="list-style-type: none"> • Comes complete with hose and fuel cap that will fit most popular suitcase generator models. Alternative cap sizes available - call Lind • Removable auxiliary tank 		
	Run time	Approx 45 hours on standard 2000W suitcase generator with auxiliary fuel tank		
Generator	Units do not come standard with a suitcase generator. Lind can also supply for additional cost.

Beacon LED Solar Tower

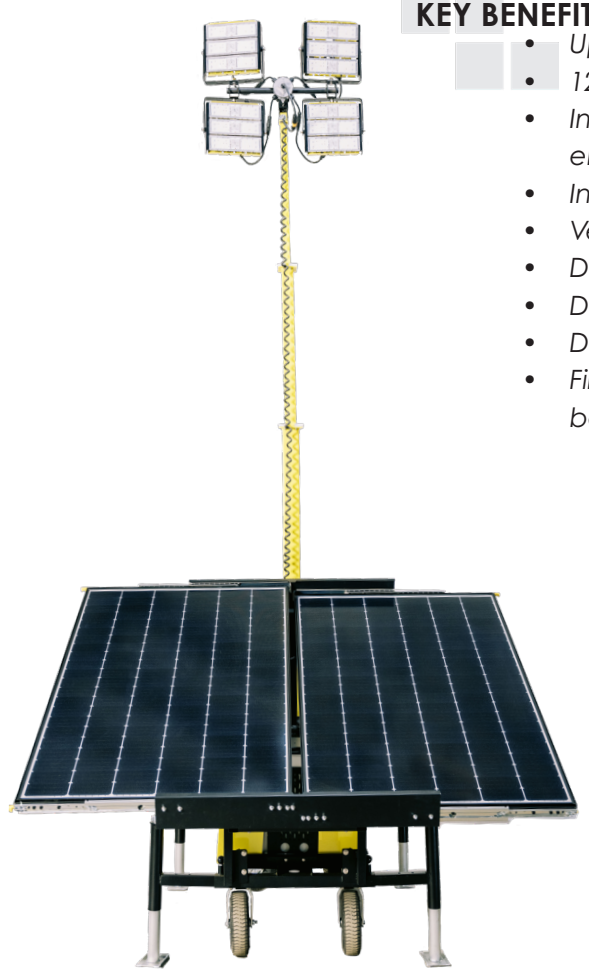

The Lind Equipment Beacon LED Solar Light Tower uses the incredibly bright 4x150W **direct drive high-efficiency LED lights** that were adapted from the **Award Winning** Beacon LED Tower. Once again we take the design to the next level to make the most **bright, compact, and truly man-portable** solar light tower available in the market.

Thanks to its user-friendly design, it operates seamlessly without requiring inputs like labor, maintenance, or fuel. Built to perform all year round, even in the toughest environments. Automatically controlled by the pre-installed DuskDawn sensor, the solar-powered Beacon LED Tower will save you time and money while drastically reducing your carbon emissions.

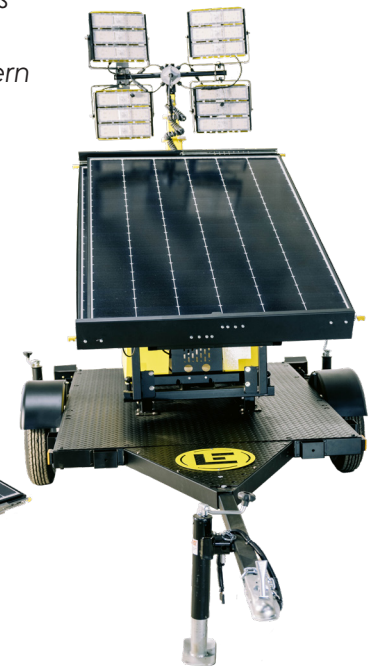

Unmatched power efficiency guarantees extended operational time, providing the brightest illumination with minimal energy consumption. The Beacon LED Solar Light Tower can be purchased as a man-portable four-wheeled cart or as a compact, lightweight tow-behind trailer.

KEY BENEFITS

- Up to 12 hours of lighting on a single charge
- 120V/15A AC convenience outlet for additional tools
- Internal climate control for optimal performance in cold and hot environments
- Incredibly easy deployment
- Very low maintenance required
- Dusk to dawn lighting control
- DC Solar and 120V AC charging input options
- Direct Drive high-efficiency LED lighting
- First of its kind Lithium Ion battery brings modern battery technology to solar lighting
